

# New NT Government COVID rules

---

These rules are for everyone - community residents and visitors:

If you come from Alice Springs, Katherine, Darwin or outside the Northern Territory you must get a rapid antigen test before you can enter a community where seven out of every 10 residents (70 per cent) are unvaccinated against COVID.

You must get tested in the three days before you enter the community.

In Alice Springs you can get tested at 44 Bath Street (corner of Bath Street and Gregory Terrace).

To find out if these rules apply to your community and what happens if your test is positive please call **1800 490 484** or go to **coronavirus.nt.gov.au**.
